

# GRUPO ALIMENTICIO SAN LUIS S.A. DE C.V.

San Luis Potosí, S.L.P, 23 of October 2013

To whom it may concern

The following testimony has been drawn up for any purpose deemed appropriate by the interested party.

On Tuesday October 1 of this year, a workman was cleaning a tube used for “pine fragrance” floor cleaner when one of his colleagues opened the tap and the liquid splashed into his left eye. The young man immediately washed his eye with “DIPHOTERINE<sup>®</sup>” and was sent for a medical check just to ensure that there was no complication to the eye. The eye responded perfectly.

So far we are extremely satisfied with the results obtained using DIPHOTERINE<sup>®</sup>

YOURS  
SINCERELY
